Business credit in 3 easy steps

We want to make the whole process of getting a loan with us as painless as possible and quick too.

1. Tell us about yourself and your business

We just need to ask a few things. Nothing too complicated

- ▶ Your details – your assets, any debts or commitments and your income
- ▶ Business and personal bank statements
- ▶ Financial accounts

Your local branch business manager will help you with all the paperwork. To make sure a loan is right for you, they will look at your credit history and ask how the loan will help your business.

2. Show us your business plan

What if things go well? What if they don't? Getting a plan together is vital to your success

- ▶ Opportunities and challenges
- ▶ Market for your business now looking forward
- ▶ Think about how you can deal with any future issues
- ▶ Think about what different levels of growth would mean for your business

We've put together a template to help you. It's on our website at bankofireland.co.uk/business

3. Forecasting your cash flow

What money have you got coming in? What money have you got going out?

- ▶ Sales and cost of sales
- ▶ Timing of sales and payments
- ▶ Who owes, or will owe, money to you?

Preparing a cash flow forecast is very useful. Not just to think about what cash you might need. But also for us to work out what's affordable for you to repay, over what timeframe.

Enterprise Finance Guarantee

We take part in the Enterprise Finance Guarantee scheme as a delivery partner of the government owned British Business Bank. So whether you need assistance with day-to-day banking or more specialised financial help, just talk to us.

Independent service quality survey results

Business current accounts

Published August 2018

As part of a regulatory requirement, an independent survey was conducted to ask customers of the 5 largest business current account providers if they would recommend their provider to other small and medium-sized enterprises (SMEs).

Overall service quality

We asked customers how likely they would be to recommend their business current account provider to other SMEs.

Ranking

These results are from an independent survey carried out between September 2017 and June 2018 by BDRC as part of a regulatory requirement.

Bank of Ireland UK have published this information at the request of the Competition and Markets Authority so you can compare the quality of service from business current account providers. In providing this information, we are not giving you any advice or making any recommendation to you and we can only give you information about our own products and services.

SME customers with business current accounts were asked how likely they would be to recommend their provider, their provider's online and mobile banking services, services in branches and business centres, SME overdraft and loan services and relationship/account management services to other SMEs.

The results show the proportion of customers of each provider who said they were 'extremely likely' or 'very likely' to recommend each service.

Participating providers: Bank of Ireland UK, Danske Bank, First Trust Bank, Santander UK, Ulster Bank.

Approximately 600 customers a year are surveyed across Northern Ireland and the Republic of Ireland for each provider; results are only published where at least 100 customers have provided an eligible score for that service in the survey period.

3001 people were surveyed in total.

Results are updated every six months, in August and February.

*SMEs include businesses, clubs, charities and societies with an annual turnover/income of up to £25m (exclusive of VAT and other turnover-related taxes).
