Five easy ways to reduce your everyday banking fees

1 Use online services to save you money
Get instant access to your account, reduce your transactional charges, save time and benefit from extended payments cut-off times. To find out more, speak to your business adviser/relationship manager.

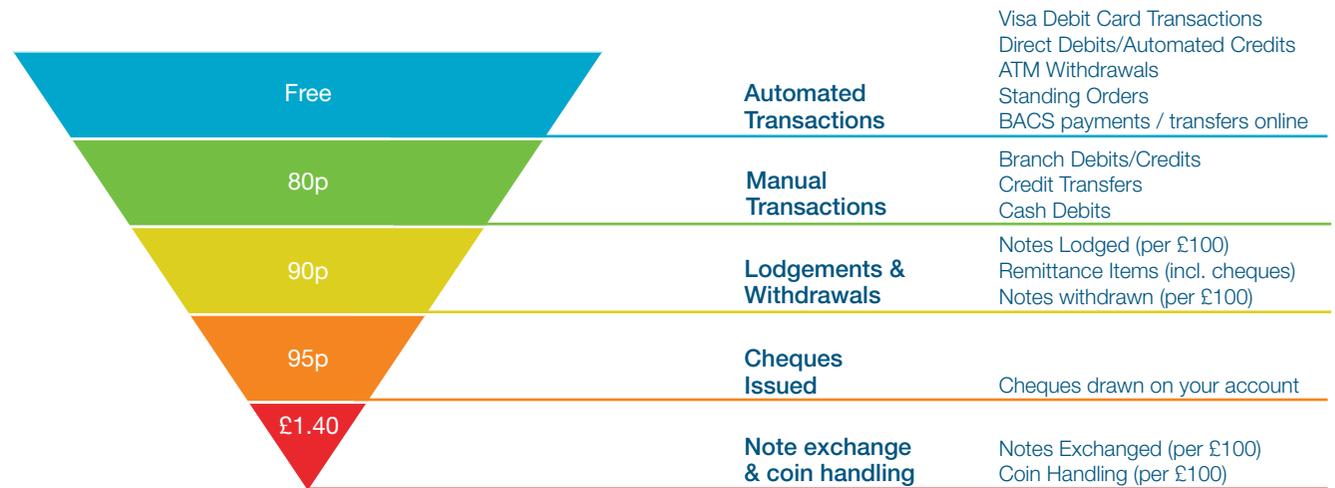

2 BOI Payment Acceptance UK¹
Accepting debit or credit card payments with BOIPA UK makes it easier and faster for customers to pay you. It saves you time and money too with clear and transparent pricing. We can help in getting you set up quickly to take payments this way - whether you're a sole trader, small to medium enterprise or operating 'on the go'. To find out more, please email sales@boipa.com or speak to your local business adviser.

3 Card Payments
Use a debit or credit card² to make payments in person, over the phone or online. Card payments enable you to have better control of your spend and save on the costs of cash and cheque payments.

4 Stop writing cheques
Cheques are a slow and expensive way to pay for goods or services. You can save time and money by setting up a direct debit, standing order or transferring money online for free.

5 Reduce the levels of cash you lodge
The more you use online payment options, debit card and contactless payments, the more you'll cut your costs. You could even receive cashback on your debit card too.
